

BookMobile

Driving Books Forward

Easy Print and eBook Sales from Your Website

Selling direct-to-consumer from your own website can be a challenge. BookMobile makes it easy to fulfill both eBooks and printed books direct to the consumer—and to send promotional copies and bulk orders. Let BookMobile handle all the back end functions so you can focus on driving sales!

How It Works

Give us the print files for the titles you want to sell from your website.

Set up your website to send orders to our system. *We can help with this too!*

We take care of the rest, for both print and eBooks.

Print

- We print copies only as demand requires, and bill you for printing only when books ship—not up front.
- We drop ship orders forwarded from your website to consumers within 24 hours.
- Combine with our eBook fulfillment for complete DTC capabilities with **no expensive inventory**.

Robust and Reliable Website Reporting Functionality

- Automatic order placement from your eCommerce website.
- See status and tracking info for all orders.
- See inventory levels

We do
DTC
(Direct to
Consumer)!

eBooks

- We convert your print PDF into high quality reflowable ePubs or web-ready PDFs.
- We fulfill eBook orders from your website, with DRM applied using Adobe Content Server 4.

ALSO!

- Order office copies or bulk orders to be drop shipped.
- Send promotional copies to a mailing list you upload—with press releases inserted!
